

PermaDrain® Trough Drain

The PermaDrain Trough Drain vacates large volumes of liquid waste while blocking foreign debris from entering drain lines by utilizing an integrated Low Pro Locking Dome Strainer and Safety Basket system. The PermaDrain Trough Drain provides a large free drainage area that is able to support the weight of heavy kitchen equipment, while catching food solids and other foreign debris for easy removal with the Safety Basket.

- Available with flange for modern floor coatings and ceramic tile applications.
- Also available without flange for finished concrete floors.
- Superior impact resistance using fiber and plastic alloy with polymers.
- Rated for use up to 215 degrees.
- Load rating of 1420 psf.
- Openings in the grate are 1 1/4" x 1 1/4"
